

Benassila Reda

Front-End Developer

I'm a React Js developer, I design and build great solutions to the front-end, I love coding things from scratch and I love bringing ideas to life in the browser, I really like to participate and communicate with my team to achieve good results.

Professional Experience

○ Feb - Apr 2023

MOAJ

Full-Stack Javascript Developer

MARREKECH

- Developed a React drag&drop flowchart application using Typescript, Vite, Tailwind and Zustand for States management and TanStack Query for query processing with the backend.
- Collaborated in the design and logic development of an Angular project for the flowchart using Tailwind and Typescript.
- I took training in Angular and Agile (Atlassian Jira).

○ Sept 2022 - Feb 2023

BIGWALL TECHNOLOGY

React js Developer Trainee

MARREKECH

- Development of a Web3 React application (DAPP) allows users to interact with the blockchain and to Mint NTFs, we connect the smart contract to the frontend and to interact with it, we sign transactions using Metamask and Coinbase, we use socket.io for a real-time app and we test and deploy the smart contract on Remix.
- Design and development of Wektionaries using the Next13 app directory and Scss, Using server-side-rendering I created wektionaries which is a dictionary providing translations, definitions, synonyms and contexts for a given word.
- Develop/Maintain the company's official website using Nextjs and Mailchimp.
- Worked on bug fixes, UI updates, and performance improvements of a React Dashboard, improved user flow and responsiveness to be more user-friendly.
- Develop a modern React Dashboard Beta that manages the stock of a delivery company.

○ Feb - Mar 2022

AM SOFT

React js Developer Trainee (PFF)

MARREKECH

- Developed a single-page app using React that allows you to generate documents and download them as PDF, word ... using React, Express, and Firebase.
- Researching for the technologies needed (React Js / Express Js / FireBase / Scss / React-Bootstrap).
- project modeling like Creating diagram of sequence, class diagram and use case diagram.

Projects

► ORION FLOWCHART

I developed an app that allows the lender to set up his rules for lending to the brokers in the format of a flowchart, and when the broker requests an offer he will see all the lenders' flowcharts that approved his profile and match the flowchart rules.

- Developed a draggable and responsive interface with Tailwind and a Ts library
- Managed all States of the flowchart with Zustand.
- Managed all the requests with the backend with Axios and Tanstack Query.
- Collaborated in building the backend of Flowchart app.

HACKERRANK
CSS CERTIFICAT

► ETERNALSONES DAPP

Collaborated in the Development of a Web3 React application (DAPP) that interacts with the smart contract, and allows user to interact with the blockchain also managemened the transactions and all the steps of the Mint.

- Connected the frontend with the smart contract and interacted with all its functions, and signed transactions using Metamask and Coinbase.
- Manage all Minting steps (whitelist Mint, publicSale Mint..).
- Created an asynchronous Mint using socket socket.io
- Hash wallet addresses by MerkleRoot.

► WEKTIONARIES DICTIONARY

I designed and developed a dictionary app that provides educational content to learn 6 languages by translations, definitions, synonyms and contexts.

- Used the server-side-rendering for all the features of translating, definitions, synonyms...
- Designed the Wektionaries design with Adobe Photoshop.
- Used Vercel for deployment.

► KATIB LIBRARY (PFF)

Katib is a single-page-app allows you to create your documents and then export them to pdf, word

- Developed a reusable history feature, which allows you to reuse documents you exported before with Firebase and Express js.
- Designed and developed a management dashboard for the administration.
- Used Scss and Bootstrap for the design.
- Modeled the diagrams using UML.

► AMINA TRANSPORT

Amina Transport is booking wordpress website of Tourist Transport Agency Marrakesh, you can excursions and tours around Morocco.

- Developed a booking system for tours and excursions.
- Developed an administration dashboard.
- Did the copywriting of tours and excursions.
